

## USER GUIDE

Launch the app using the jar file provided

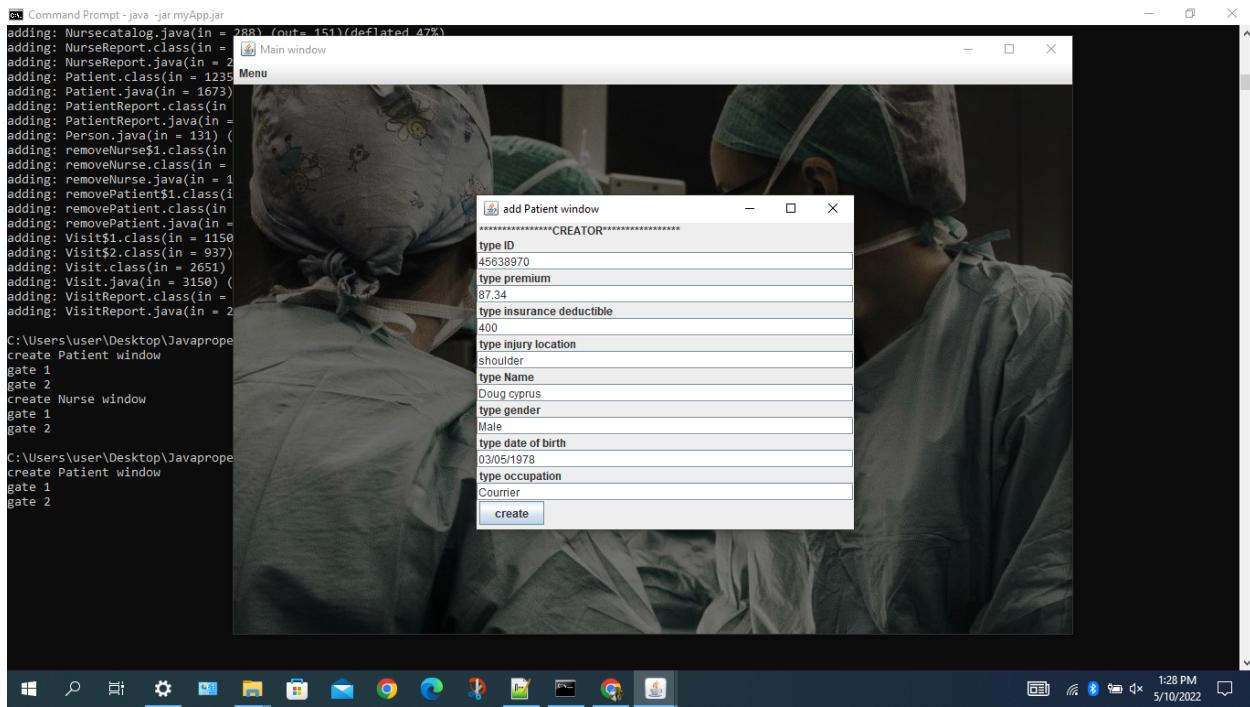

```
cmd Select Command Prompt
adding: Nursecatalog.java(in = 288) (out= 151)(deflated 47%)
adding: NurseReport.class(in = 2863) (out= 1544)(deflated 46%)
adding: NurseReport.java(in = 2475) (out= 824)(deflated 66%)
adding: Patient.class(in = 1235) (out= 550)(deflated 55%)
adding: Patient.java(in = 1673) (out= 418)(deflated 75%)
adding: PatientReport.class(in = 3123) (out= 1611)(deflated 48%)
adding: PatientReport.java(in = 2483) (out= 831)(deflated 66%)
adding: Person.java(in = 131) (out= 92)(deflated 29%)
adding: removeNurse$.class(in = 1112) (out= 660)(deflated 40%)
adding: removeNurse.class(in = 1637) (out= 951)(deflated 41%)
adding: removeNurse.java(in = 1411) (out= 648)(deflated 54%)
adding: removePatient$.class(in = 1124) (out= 658)(deflated 41%)
adding: removePatient.class(in = 1653) (out= 948)(deflated 42%)
adding: removePatient.java(in = 1423) (out= 645)(deflated 54%)
adding: Visit$1.class(in = 1150) (out= 686)(deflated 40%)
adding: Visit$2.class(in = 937) (out= 595)(deflated 36%)
adding: Visit.class(in = 2651) (out= 1475)(deflated 44%)
adding: Visit.java(in = 3150) (out= 1074)(deflated 65%)
adding: VisitReport.class(in = 2800) (out= 1574)(deflated 43%)
adding: VisitReport.java(in = 2300) (out= 824)(deflated 64%)
C:\Users\user\Desktop\Javaproper>java -jar myApp.jar
create Patient window
gate 1
gate 2
create Nurse window
gate 1
gate 2
C:\Users\user\Desktop\Javaproper>java -jar myApp.jar
```

Click on the menu button and choose what you would like to do.

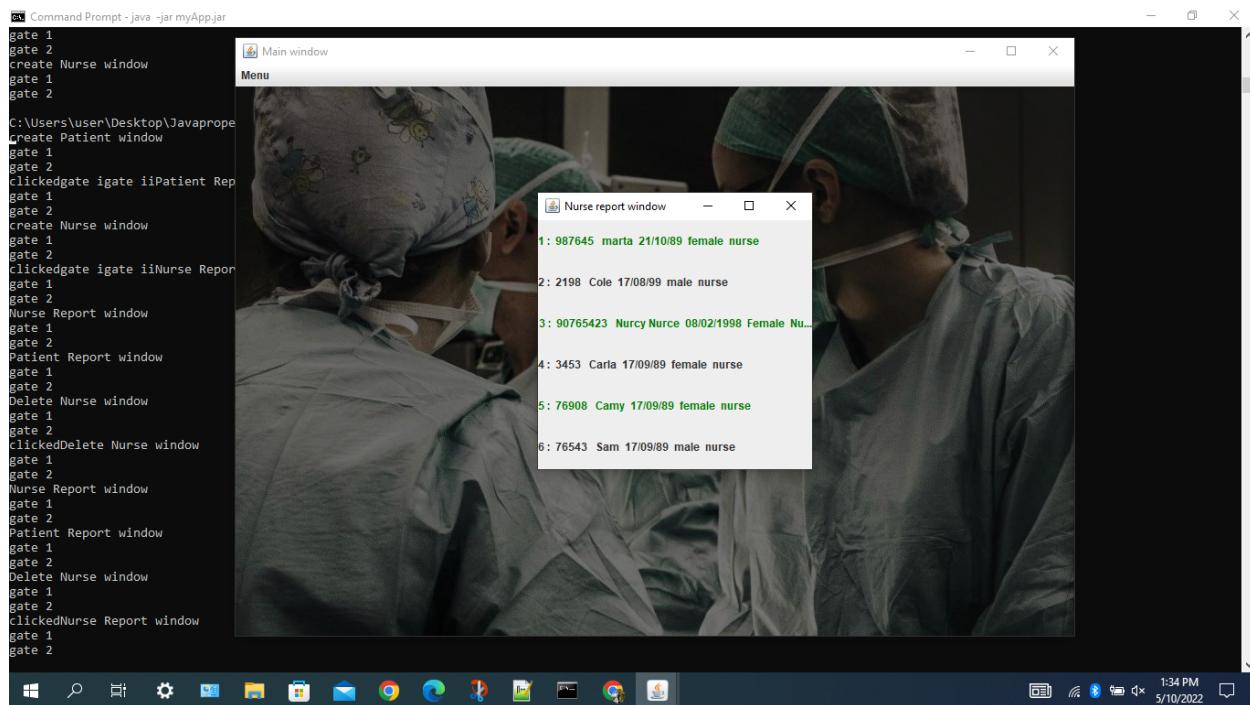

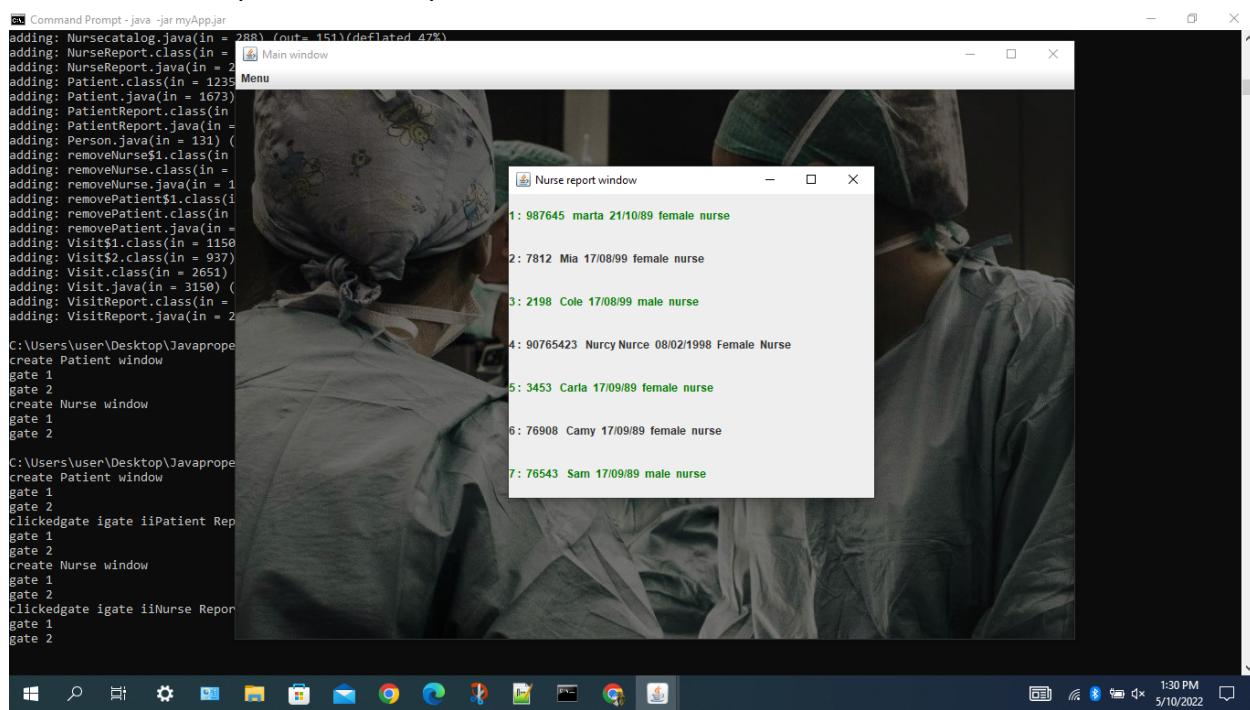

### 1-create patient : fill out the information to create a new patient

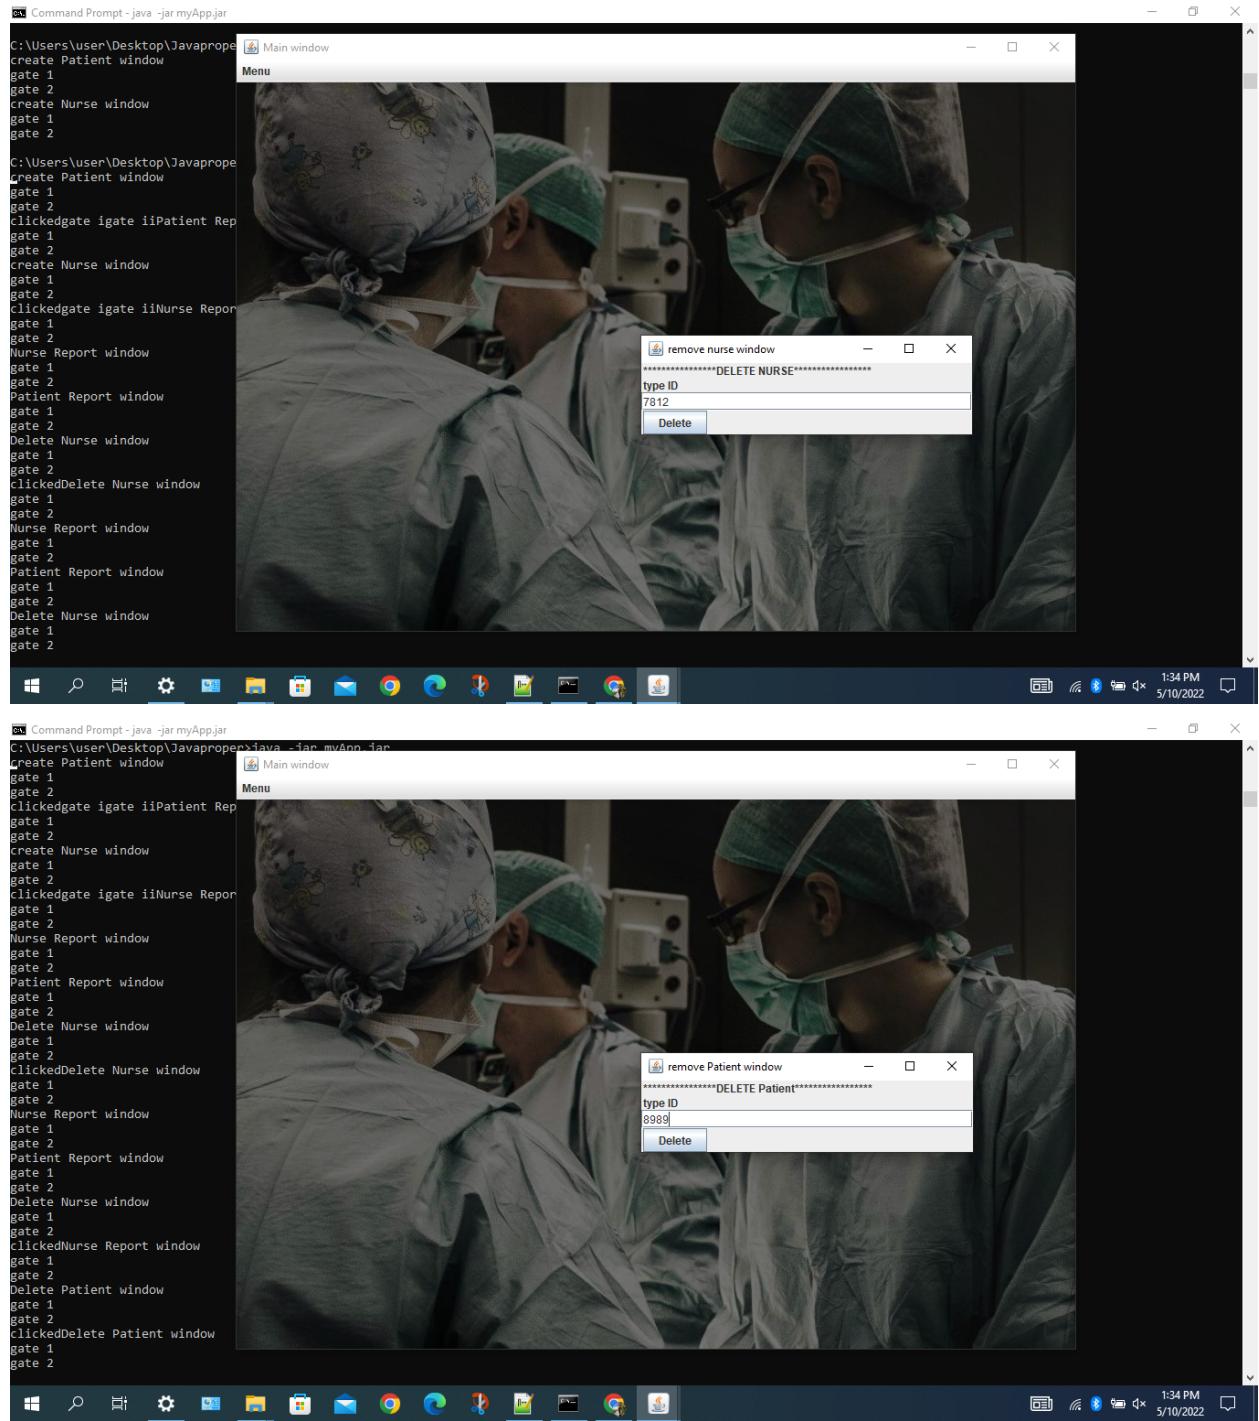

Do the same to create a Nurse.

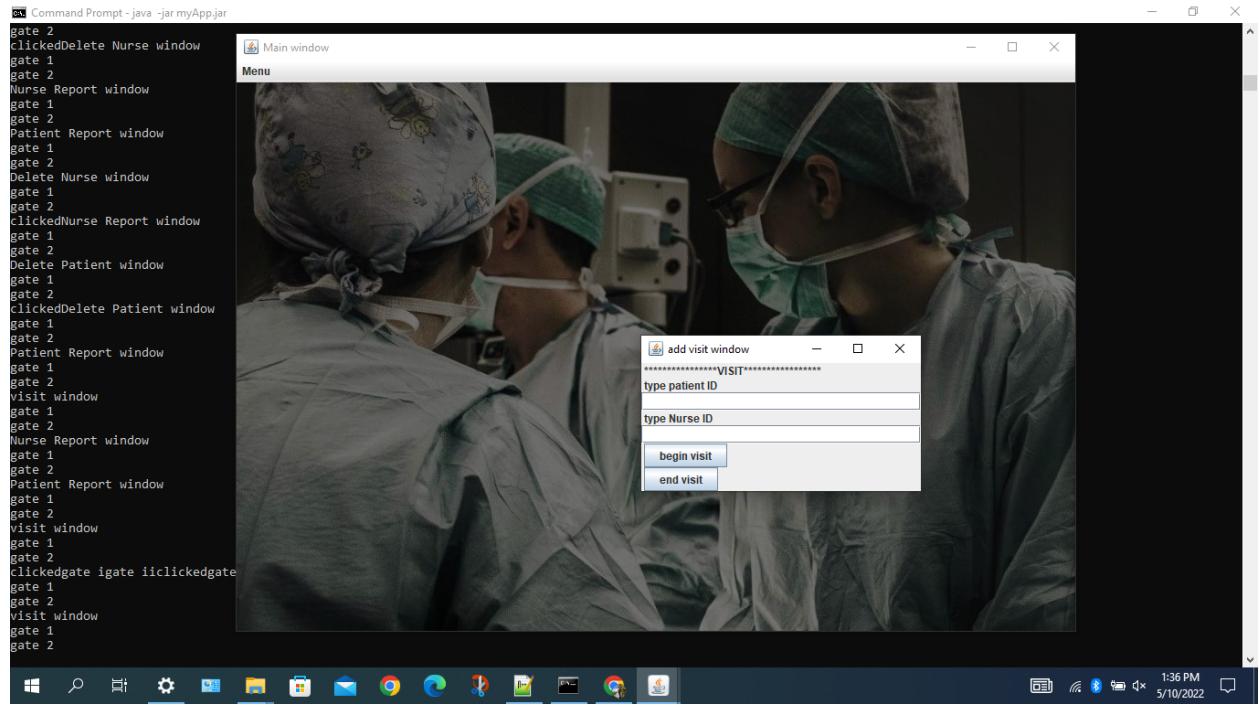

### 3-To see all the report click on report:

### 4-To delete type in the ID and hit ok

5- To record a visit click on menu visit :

## 6- Finally to display the saved data:
